Date of birth : 04-03-2004
Nationality   : Khmer
Place of birth :   Kandal Province

About Me

I'm qualified as a WEP Intern with experience in Back-End, Frond-End, and website design projects at school.

Experience

School Project

Web Design Project (Sep 27, 2023-Oct 1, 2023)
In this project, We use the Figma tool to design interfaces before we write code, and we use **HTML**, **SASS,** and **CSS** to build clinic service websites.

Build Game Project (Oct 19, 2023-Oct 25, 2023)
In this project, we use Figma to design interfaces and build a functional game from scratch using an algorithm(**Basic Python**) with a thinker UGI interface.

POS System Project (Dec 13, 2023-Dec 19, 2023)
In this project, We build a functional system using **JavaScript**, **HTML**, **CSS**, and **Bootstrap** that users can interact with.

Software Deployment
In this project, we host a static website by buying a domain name in **GoDaddy** and hosting a WordPress website on a **Ubuntu server**.

Visual Company One (Feb 14, 2024-Mar 26, 2024)
In this project, we build a website that users can interact with. In addition, we use front-end (**HTML**, **CSS**, **JavaScript**, **Bootstrap**), and back-end(**PHP**), and store data in **Database**. Moreover, we use git and git hub for version control. Also, Jira to manage our work.

Airline Management System (Apr 26, 2024-May 3, 2024)
In this project, we use **OOP** and **Typescript**.

Visual Company Two
In this project, we build a website that user can buy and sell scrap. In addition, we use front-end (**HTML, CSS, JavaScript, Bootstrap, Vue JS**), and back-end (**Laravel**) and store data in **Database**. Moreover, we use git and git hub for version control. Also, Jira to manage our work and Clickity to manage time.

Technical Skills

- HTML
- CSS
- Bootstrap
- PHP
- Python
- JavaScript
- TypeScript
- Database
- Node JS
- Vue Js
- Laravel

Concepts

- MVC
- OOP
- Algorithm

Tools

- Figma
- Git
- Jira
